Message

Gov. Cooper,

First and foremost my husband and I support the work you have been doing. We are also very thankful for the personal sacrifices you make by being Governor.

I just saw a commercial with someone saying that he supported and was going to try and get Governor Cooper to be on the side of the Atlantic Coast Pipeline! This stopped me in my tracks and hence this email to you. I want you to know that my husband and I don't want any pipelines running through this or any state. It will destroy our coastline (haven't they been through enough with all the storms) Tourism is a major support for our coastal residents as well as the people who fish for a living. Who is going to want to go to an oil slicked beach with dead fish and birds. The contamination will spread inland and destroy life for everyone. They can talk all they want about it being safe. As you well know this is false statement. We are still fighting the pipeline at Standing Rock. We have family, friends and loved ones there. There were massive numbers of protectors there, who have been harmed physically, mentally, and jailed during the prayers at the direction of the sheriff that is in the back pocket of oil companies. . It was just released there has been a major leak of more than 210,000 gallons on that pipeline that we have been fighting against. Please Governor Cooper do not fall for the lies of the safety of pipelines. This isn't about our needing oil, it's about lining the pockets of the oil people. Their greed is horrific. Their disregard of what WILL happen to this planet,..well I have no words to describe that. They do not care about the planet or what will be left for our children in the future. I truly hope you can see these people for what they are. I would really like to know your thoughts on this matter.

Thank You

Cathy and Walter Heckman
